

Dr. Michael L. Schwartz

West Palm Beach, Florida

ASK DR. SCHWARTZ

HOW DO YOU SPEND YOUR FREE TIME?

I am an avid endurance runner, and for the past few years have been participating in and completing several half and full marathon races. Training for and finishing in these events requires the ability to remain focused for long periods. I bring this same dedication to each patient I work with.

WHAT CAN PATIENTS EXPECT FROM YOU?

They can expect my undivided attention and reliable results. I evaluate each patient's entire facial harmony and adapt my techniques to achieve a custom result, taking as long as needed to get them to their prize, their finish, their new appearance.

HOW ARE YOU LIKE AN ARTIST?

Developing a specialty in noses and faces requires an artistic enjoyment of solving puzzles. Just like sculpting a piece of marble, facial surgery takes patience, planning and skill to bring about comprehensive beauty from what starts out as separate pieces.

Remarkable Results

"There is no greater compliment than when colleagues also choose to be patients. As someone in the aesthetic enhancement industry, I did my homework before choosing a doctor for my own procedure, and I have to thank Dr. Schwartz again for the amazing results. I am ecstatic with the outcome of my blepharoplasty. I have been in this business for more than 30 years, and I am familiar with all the top plastic surgeons' work across the entire country. So please understand the compliment I am giving when I say his work is truly an art form. Although he is well known as "The Nose Doctor," I believe he is also the Michelangelo of facial plastic surgery. My eyes are perfectly symmetrical and natural looking, and I now appear 30 years younger! We will now be referring all patients in need of these surgical procedures to him."

—Rich, age 49; procedure performed, blepharoplasty

CASE STUDY

DR. SCHWARTZ KNOWS NOSES

"This 38-year-old wanted what he called 'his big nose' smaller," says Dr. Schwartz, who notes however, that "it wasn't big, just short, over rotated and over projected in proportion to his face." In terms of his treatment plan, Dr. Schwartz says, "We actually lengthened his nose, derotating the tip and trimming the nasal spine to create a 90-degree angle at the lip-line. We also augmented his chin to balance the profile."

"we counsel patients on what's right for them rather than what's trendy"

MAINTAINING A HIGH LEVEL OF DISTINCTION, DR. MICHAEL L. SCHWARTZ HAS DELIVERED QUALITY CARE IN WEST PALM BEACH FOR 20 YEARS. DURING THIS TIME, HIS SKILLS HAVE SET HIM APART. "MY SPECIALTY IS FACES AND NOSES, AND MY RESULTS ARE GOING TO BE RIGHT OUT THERE FOR EVERYONE TO SEE. I TAKE AS MUCH TIME AS NECESSARY WITH EVERY PATIENT, AIMING FOR PRECISE RESULTS," SAYS DR. SCHWARTZ, WHO WAS NAMED A "TOP DOC" BY BOTH *BOCA LIFE* AND *PALM BEACH LIFE* MAGAZINES.

ABOUT DR. SCHWARTZ

HOW DO YOU MEASURE SUCCESS?

A successful result is when a patient looks in the mirror and sees the image they have of themselves in their mind's eye looking back at them.

WHAT DOES THIS ENTAIL?

For some patients, that may involve the softening of a feature; for others, it encompasses seeing a reflection of the youth they have inside, instead of a tired look.

WHAT IS YOUR GOAL FOR EACH PATIENT YOU TREAT?

I want to bring out the natural vitality already present in my patients.
